Professional Summary

Results-driven **Junior Data Analyst** with expertise in **data cleaning, SQL, Python, and business intelligence**. Strong background in **statistical analysis, machine learning, and data visualization** using **Power BI & Tableau**. Proven ability to transform raw data into actionable insights, optimize queries, and build predictive models. Certified in **Data Science & SQL** with hands-on experience in **ETL processes, exploratory data analysis (EDA), and dashboard development**.

Technical Skills

Programming: Python (Pandas, NumPy, Scikit-learn), SQL (MySQL, PostgreSQL)
Data Visualization: Power BI (DAX, Power Query), Tableau, Matplotlib, Seaborn
Database & Analytics: Query Optimization, Joins, CTEs, Stored Procedures, ETL
Machine Learning: Regression, Classification, Feature Engineering, Model Evaluation
Statistical Analysis: Hypothesis Testing, A/B Testing, Descriptive Statistics
Tools: Excel (PivotTables, VLOOKUP), Jupyter Notebook, Git

Internship Experience

Machine Learning Intern | TechCiti Software

Aug 2024 – Nov 2024

- Optimized SQL workflows, increasing report generation speed by 25%.
- Built ML models (Logistic Regression, Random Forest) with 85%+ accuracy on 10,000+ records.
- Supported ML deployment using Flask and monitored KPIs for performance improvement.

Projects

Lung Cancer Prediction | Python, Scikit-learn 🔗

- Built a **classification model (Logistic Regression)** with **87% accuracy** to predict cancer risk.
- Performed **EDA** to identify key features (smoking habits, chest pain) impacting predictions.
- Reduced **false negatives by 15%** through hyperparameter tuning, improving clinical relevance.

E-Commerce Customer Churn Analysis | SQL, Power BI 🔗

- Analyzed **10,000+ customer records** to identify churn drivers (satisfaction score, cashback usage).
- Developed **15+ optimized SQL queries** and interactive **Power BI dashboards** for churn tracking.
- Provided insights leading to a **19% reduction in churn** for high-risk customer segments.

Smartphone Addiction Prediction | Python, Firebase, Scikit-learn 🔗

- Trained a Random Forest model with **89% accuracy** on behavioral data.
- Engineered **10+ features** and used **SHAP values** for model interpretability.
- Built a **full-stack dashboard** (Firebase Firestore + Python) for real-time monitoring.

Certifications

Data Science & Machine Learning – Entri Elevate (Illinois Tech)

Aug 2024 – Jun 2025

Credential ID: 7KOH0II-GVIU | [Certificate Link](#)

- Covered data analysis, machine learning, statistics, MySQL, Python, Power BI, and Excel.
- Hands-on projects on real-world data with a focus on implementation and reporting.

SQL (Intermediate) – HackerRank

May 2025

Credential ID: 07e078373847 | [Certificate Link](#)

- Demonstrated proficiency in complex SQL operations including joins, subqueries, and set operations.
- Validated practical skills in working with relational database queries for data analysis.

Education

Bachelor of Technology in Computer Technology (CGPA: 6.93 / 10)

Sep 2021 – Apr 2025

Bannari Amman Institute of Technology

Erode, Tamil Nadu
